Legacy analytical-method and detection-limit crosswalk for MCR-GeoChem v1.0.0

Danso, Bezali Kwame[1]; Abdullah, Saadatu[2]

Show affiliations

Crosswalk of 89 laboratory method codes used in USGS, GEOROC, and EarthChem geochemistry of the Midcontinent Rift to a common vocabulary (technique, digestion, total/near-total/partial/semi-quantitative extent), with method descriptions and references, plus a method-by-analyte detection-limit table (observed and documented limits, censoring rates, USGS best-value ranks).

Companion to the MCR-GeoChem dataset.
